TURN WORDS INTO ACTIONS!

Here's a feature that will have your friends wondering if you are a magician. State-of-the-art Voice Command Technology (VCT) allows you to control your Xylo by just talking to it. Programmed to understand the Indian accent, it allows you to command everything from the wipers and door locks to your personal phone calls. **Needless to say, this is a first in any class.**

- > Operate the **headlights, wipers, fuel lid, door locks & more** through voice commands.
- > Receive **audio alerts** when a safety lapse is detected.
- > Control your entire **audio system** and **telephone** through **Blue Drive Technology**.

The New Xylo comes with three engine options to suit your driving needs - A **powerful mHawk engine**, a **torquey mEagle engine** and a **super efficient mDI CRDe engine**.

Extra Stability Technology (E.S.T) comes standard on all variants of the new Xylo. It remarkably improves the ride quality and handling by reducing body roll on quick turns. Allowing you to tackle winding roads as well as highways like a breeze.
