

AMG

THE ALL-NEW MERCEDES-AMG
GLA 35 4MATIC.

The all-new Mercedes-AMG GLA 35 4MATIC is an SUV with racing genes; which proves that suitability for everyday use and adventure are by no means a contradiction – but can be optimally combined.

Perfect for those who always want their sports equipment on board and ready on hand. It is built in the spirit of our sporty and emotional AMG Driving Performance.

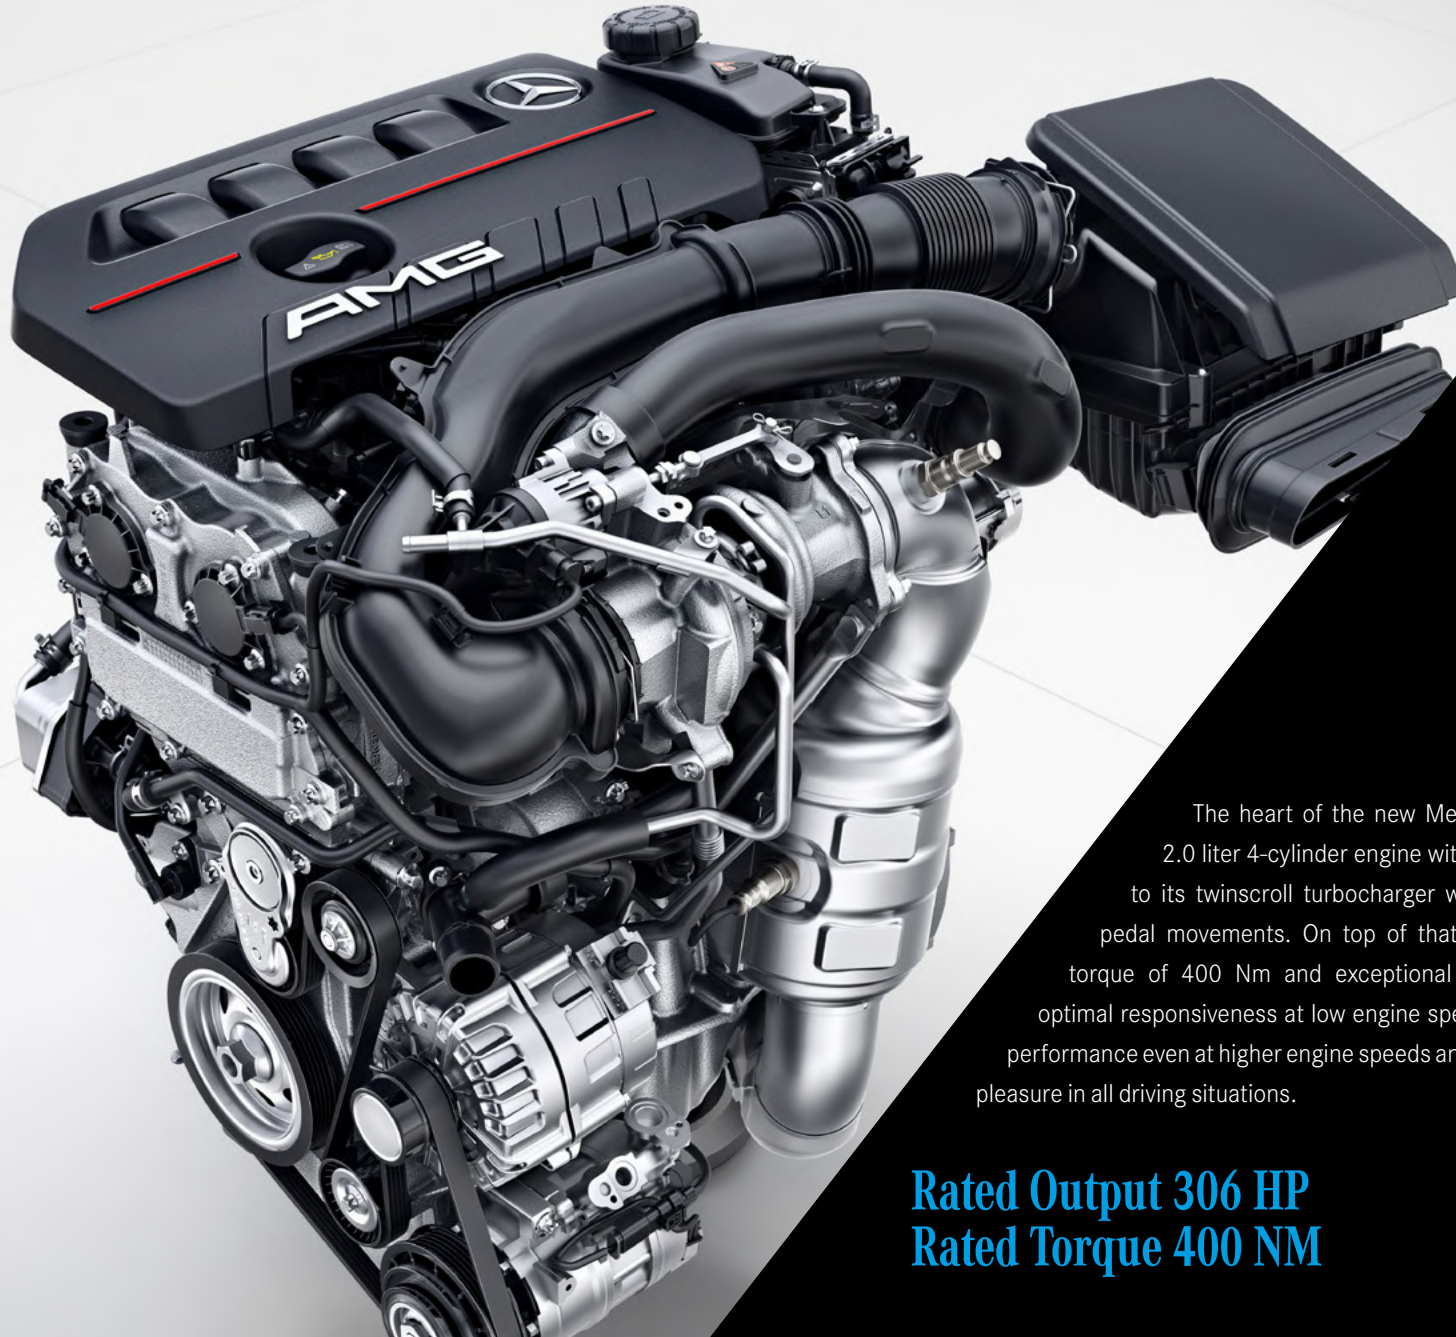

NOT A FOLLOWER AN INFLUENCER

GEARED FOR PRECISION

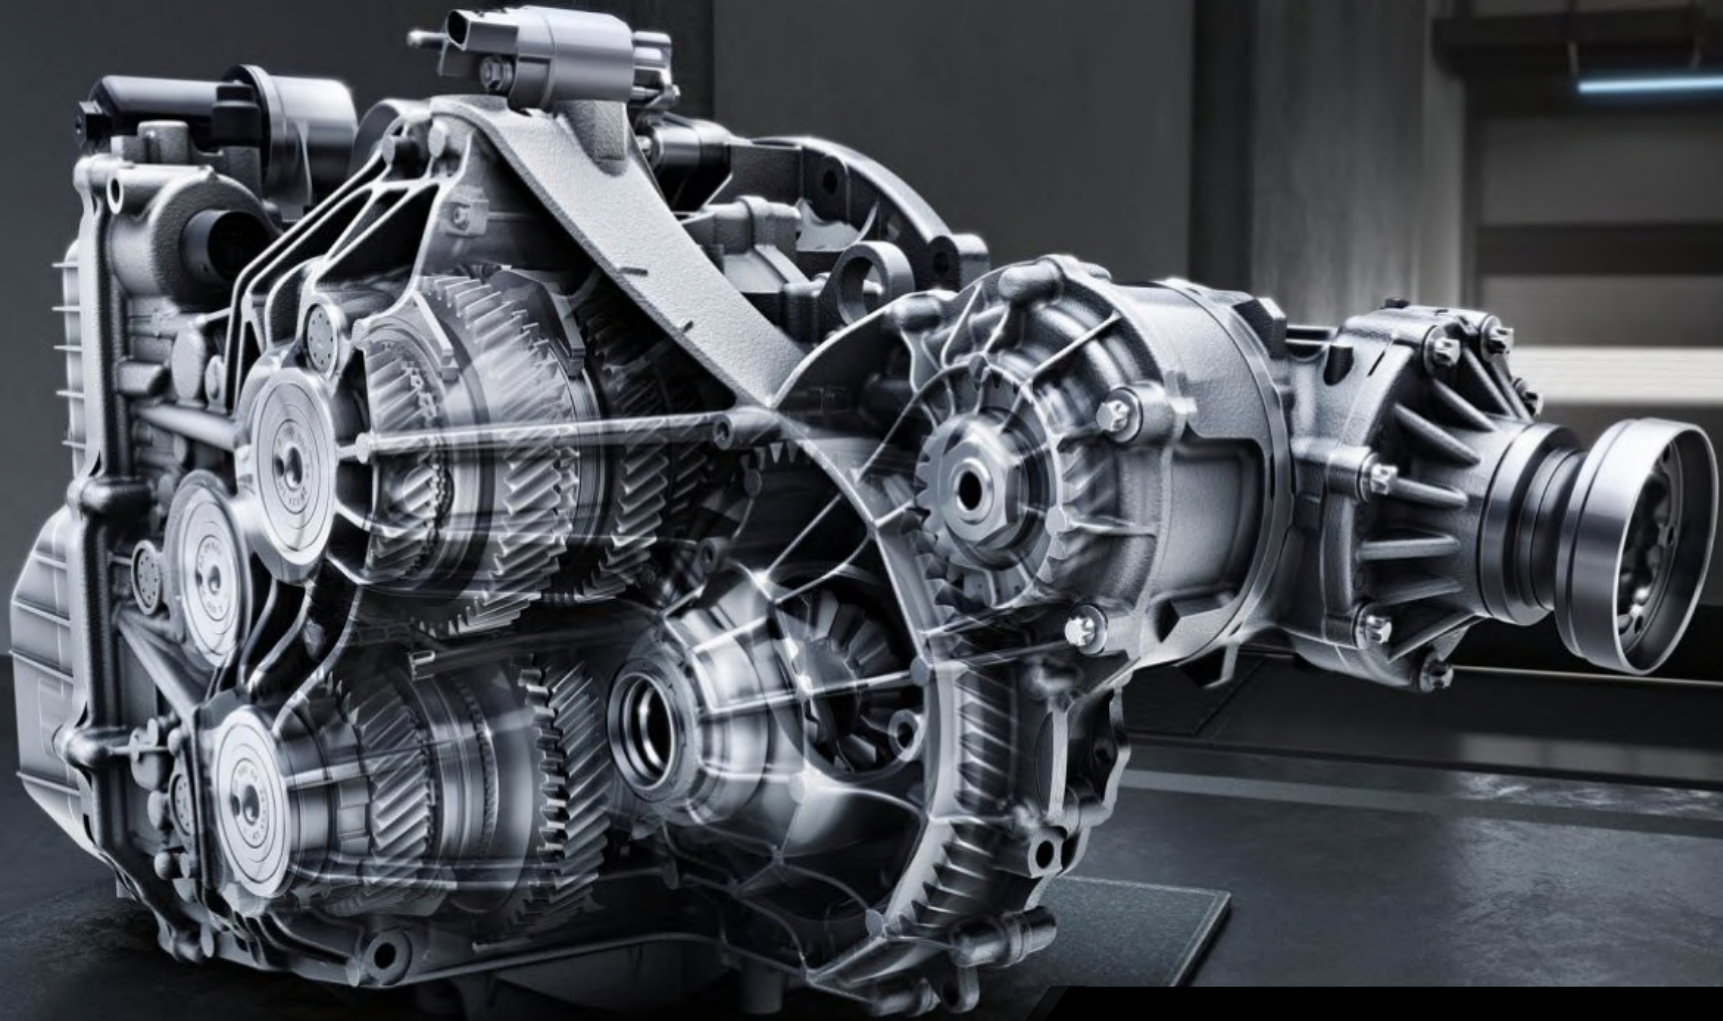

Don't let anything hold you up, and enjoy your kind of freedom. The Mercedes-AMG GLA 35 4MATIC will take you everywhere you need to go – both on the road and beyond.

The heart of the new Mercedes-AMG GLA 35 4MATIC is the AMG 2.0 liter 4-cylinder engine with 225 kW [306 HP]. It impresses thanks to its twin-scroll turbocharger with fast reactions to all accelerator pedal movements. On top of that, the engine boasts tremendous torque of 400 Nm and exceptional responsiveness. It combines optimal responsiveness at low engine speeds with a high increase in performance even at higher engine speeds and thus offers pure driving pleasure in all driving situations.

Rated Output 306 HP
Rated Torque 400 NM

AMG SPEEDSHIFT DCT 8G

Swifter responses.

An automatic transmission which adjusts to your requirements: with the drive program you can change the characteristics of the dual clutch transmission. It uses the 8 gears selectively for efficient driving with low engine speeds and for impressive dynamism. As the next gear is already preselected, you accelerate seamlessly.

AMG DYNAMIC SELECT

With the AMG DYNAMIC SELECT drive programs, you have your own personal race engineer on board. Depending on the situation or your mood, you can change the character of your vehicle.

Five AMG DYNAMIC SELECT drive programs:

- "Comfort" : well-balanced and fuel-efficient
- "Slippery": reduced throttle response, control systems which intervene particularly early, optimum mode for rain and slippery surfaces
- "Sport": more agility and dynamics with sporty and firm suspension tuning, spontaneous throttle response and modified shift points
- "Sport+": enhanced sportiness, suspension and drive system features with even more dynamic tuning
- "Individual" : variation of individual parameters to suit personal preference

All drive programs are also visualised. You see a special symbol – depending on the driving mode – in the AMG instrument cluster. In addition, a pop-up window appears in the media display when changing the drive program.

AMG PERFORMANCE 4MATIC

The responsive AMG Performance 4MATIC all-wheel drive with fully variable power distribution converts the superior engine power into the best possible ratio of dynamics, traction and efficiency. Depending on the driving situation, a multi-plate clutch with AMG-specific electro-mechanical control enables a variable, spontaneously adjustable distribution of the torque to the drive wheels. The result is a combination of outstanding everyday functionality, great driving pleasure on the road and balanced off-road mobility.

The specification of the all-wheel drive control depends on the selected ESP® mode: comfort-oriented with **ESP ON** and sporty and dynamic with **ESP Sport** and **ESP OFF**.

AMG RIDE CONTROL SUSPENSION

The AMG RIDE CONTROL suspension, an electronically controlled damping system is your key to superior performance in everyday driving and on the race track. The adaptive damping provides a broad range between a comfortable and a very sporty setup. You choose between **Comfort**, **Sport** or **Sport+** with only one operating procedure and the suspension characteristics change immediately.

DIRECT-STEER SYSTEM

You experience the advantages of the Direct-Steer system in every bend. It systematically orientates itself towards your steering movement through a variable steering ratio. Less steering, more agile driving, experience more fun at the wheel.

The Direct-Steer system also demonstrates its qualities to you when driving straight. The vehicle runs with impressive directional stability. When parking or manoeuvring, you do not have to turn the steering wheel so much – more comfort at the lowest speed is also down to the on-demand steering power assistance.

CRUISE CONTROL

Enjoy relaxed, fuel-efficient motoring on longer journeys in particular. Preselect your desired speed and your vehicle will take care of the rest. In addition to the travelling speed, the limiter helps you to observe a maximum speed. The controls are located in an ideal, ergonomic position on the left steering wheel spoke.

- Display in instrument cluster
- Cruise control buttons on the steering wheel
- Desired cruising or maximum can be selected in 1 km/h or 10 km/h steps

Something special. On every trip, from any angle. With the Fit & Healthy features.

Not just a means of arrival, the new Mercedes-AMG GLA 35 4MATIC is the perfect journey companion. The Fit & Healthy features understand, motivate and guide you in remaining in the pink of health while driving. Get ready to elevate your driving experience with a car that cares.

COMMANDS RESPECT WHEREVER IT ROAMS

The Mercedes-AMG GLA 35 4MATIC is breathtaking from grille to rear. Its stunning AMG-specific radiator grille makes a memorable first impression. The car stands out with its exquisite 5-twin-spoke light-alloy wheels and muscular exterior. The rear is dominated by the AMG roof spoiler lip, a rear apron with a new diffuser insert as well as distinct chrome-plated exhaust tailpipes.

*Please read the disclaimer.

AMG STYLING

The Mercedes-AMG GLA 35 4MATIC is differentiated by a host of specific exterior design elements. In particular the signature sporty AMG-specific radiator grille, the striking AMG rear apron with two round tailpipe trim elements and the AMG spoiler lip strike a memorable chord.

- ✓ Signature sporty AMG-specific radiator grille
- ✓ AMG front apron with air deflectors on the outer air intakes
- ✓ Front splitter and trim elements on the louvres in the outer air intakes and in the door panel in silver chrome
- ✓ AMG rear apron with diffuser look with four vertical fins and a trim element in silver chrome plus two round tailpipe trim elements with a diameter of 90 mm
- ✓ 48.3 cm (19-inch) AMG 5-twin-spoke light-alloy wheels, painted in Tantalite Grey with a high-sheen finish
- ✓ AMG high-performance brake system with silver brake callipers and black AMG lettering at the front
- ✓ "TURBO 4MATIC" lettering on the front wings
- ✓ Aluminium-look roof rails
- ✓ AMG spoiler lip on the roof spoiler in the vehicle colour

MULTIBEAM LED

For your perfect vision: adaptive MULTIBEAM LED headlamps with 18 individually controllable high-performance LEDs react to the traffic situation. The core comfort feature is Adaptive Highbeam Assist Plus. The partial main beam omits other road users without dazzling them. And the cornering light and active light functions illuminate the field of vision optimally so that you can detect dangers sooner.

ADAPTIVE ALL-LED TAIL LIGHTS

The adaptive all-LED tail lights shine with their brilliant design and intelligent technology. They continuously adjust their light intensity to the surrounding lighting conditions.

PANORAMIC SLIDING SUNROOF

The panoramic sliding sunroof provides a genuine open-air ambience. The large area of glass affords interesting views and creates a friendly atmosphere. When driving with the roof open, you will enjoy a refreshing feeling. The electric panoramic sliding sunroof operates using the one-touch function. It has intelligent safety functions such as the integral obstruction sensor. And a sudden rain shower won't bother you either, as your sliding sunroof will close automatically.

POLISHED ALUMINIUM ROOF RAILS

The roof rails serve as a transport option "on top". Here, you can conveniently and securely fit a host of different roof rack systems. Thanks to their high-quality polished aluminium finish, in addition to being practical, they are also extremely stylish.

ALLOYS

48.3 cm (19-inch) AMG 5-twin-spoke light-alloy wheels, aerodynamically optimised, painted in Tantalite Grey with a high-sheen finish.

MIRROR PACKAGE

You can fold in the exterior mirrors electrically and thus make your car slimmer at the press of a button. Small parking spaces suddenly become big enough. The driver's exterior mirror and the rear-view mirror are also able to register headlamp dazzle from the rear and dim automatically.

TURBO
4MATIC

AN INTUITIVE DESIGN FOR REIMAGINED LUXURY

From signature design elements such as the widescreen cockpit, a flat-bottom multifunction sports steering to the sports seats in Nappa leather, you are all set to paint the town red with finesse.

*Please read the disclaimer.

NICE TO MEET YOU

You can talk to MBUX any time: the multimedia system from Mercedes-Benz is innovative, intuitive and intelligent. And it connects you with your digital world.

MBUX touch control concept

So absorbing that it's hard to leave alone. The sophisticated MBUX touch control concept lets you determine exactly what it shows you and how you control it. As intuitively as on a smartphone. Either with the new touchpad with haptic feedback, or by using the Touch Control buttons on the new steering wheel, or on the touchscreen. The choice is yours.

MBUX voice control

It's always best to talk. The MBUX (Mercedes-Benz User Experience) infotainment system with intuitive voice control is available for the new GLA. It understands what you say and obeys your commands using natural speech recognition. It takes only two words: "Hey Mercedes." And the new GLA is all ears.

Mercedes me CONNECT.

Always stay connected.

Smartphone App Functionality

MMC App functionality,
Vehicle Health, Vehicle Status Check, Location,
Remote lock-unlock, Geo-fencing, etc.

In-Car Functionality

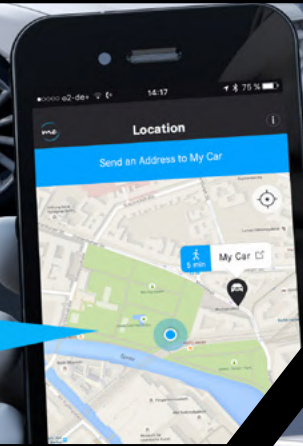

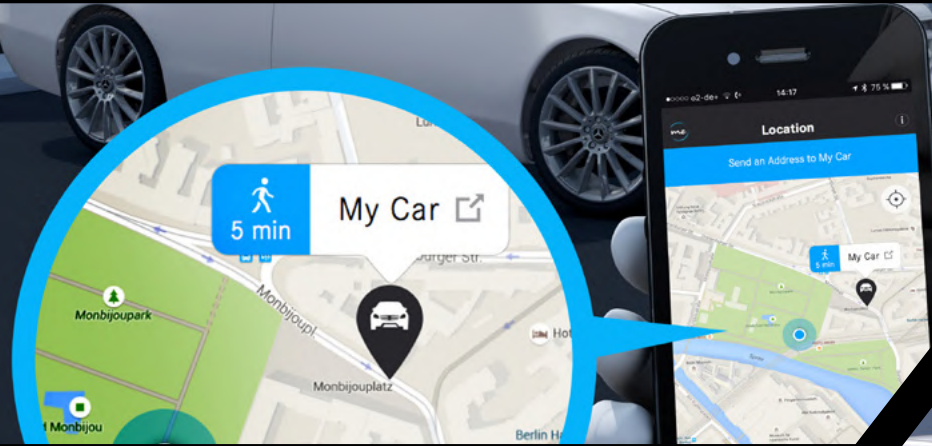

E-call, MeCall (assistance), Weather Check,
Online Search, Hey Mercedes! (MBUX)

Home Functionality

Voice Assistance -
Alexa & Google Home Integration

Please note that certain services are offered free of cost for a period of three (03) years and may be chargeable at the expiry of three (03) years from the date of activation of such services. If you wish to continue using those services, you may renew the same through Mercedes Me Store (as and when it is available). Please get in touch with your preferred Dealer for more details.

VEHICLE MONITORING

- ✓ Locates and directs you to your parked vehicle within a radius of 1.5 km.
- ✓ You can get your vehicle's geo-coordinates sent by GPS.
- ✓ Receives alert notifications if the vehicle exceeds the set speed.

Smartphone App functionalities

VEHICLE SET-UP

- ✓ Remote Engine Start
- ✓ Receives traffic information in real time and optimizes dynamic route guidance.
- ✓ Remote Retrieval of Vehicle Status: Information on Mercedes me App or the Mercedes me Portal.
- ✓ Remote Door Locking and Unlocking: You can conveniently remotely lock or unlock your vehicle from the Mercedes me App.
- ✓ Speed Alert: Receive an alert if your vehicle exceeds a certain speed.
- ✓ Send2Car function: Send your address to your vehicle via an app.

Please note that certain services are offered free of cost for a period of three (03) years and may be chargeable at the expiry of three (03) years from the date of activation of such services. If you wish to continue using those services, you may renew the same through Mercedes Me Store (as and when it is available). Please get in touch with your preferred Dealer for more details.

*Please read the disclaimer.

LINGUATRONIC VOICE CONTROL SYSTEM

- Just two words “Hey Mercedes”
- Obeys every word and talks to you.
- Checks the destination, weather, changes the radio station or takes you home via the fastest route.

MERCEDES-BENZ EMERGENCY CALL SYSTEM

It saves you vital minutes in an emergency. If an accident is detected, a communications module with its own SIM card automatically triggers an emergency call which can shorten the time until rescue services arrive.

In-Car functionalities

INDIVIDUALIZATION

- Change the ambient lighting.
- Configure the display styles on the instrument cluster and multimedia system display.
- Individualize the Touch Control buttons on the steering wheel.

ARTIFICIAL INTELLIGENCE

- Remembers your favorite songs and the route to your workplace.
- Automatically adjusts radio frequency.
- Shows the fastest route.

Please note that certain services are offered free of cost for a period of three (03) years and may be chargeable at the expiry of three (03) years from the date of activation of such services. If you wish to continue using those services, you may renew the same through Mercedes Me Store (as and when it is available). Please get in touch with your preferred Dealer for more details.

ALEXA HOME INTEGRATION WITH MERCEDES ME CONNECT:

Conversations with Alexa are now more fun when the systems connect with your Mercedes-Benz via cloud and give you real time updates. This feature can be used from an Alexa Echo device setup at home, office or also from phone's Alexa App. The command starts with "Alexa, Ask Mercedes to...." To start Mercedes me skill just say "Alexa, Open Mercedes" or directly initiate a command by saying "Alexa, tell Mercedes to <command>".

Home functionalities

GOOGLE HOME INTEGRATION WITH MERCEDES ME CONNECT:

Google Home integration is also offered for Google home users. In a similar way, once the Mercedes me connect is linked to Google Home, you can start issuing commands.

Please note that certain services are offered free of cost for a period of three (03) years and may be chargeable at the expiry of three (03) years from the date of activation of such services. If you wish to continue using those services, you may renew the same through Mercedes Me Store (as and when it is available). Please get in touch with your preferred Dealer for more details.

*Please read the disclaimer.

ALL-DIGITAL INSTRUMENT CLUSTER DISPLAY

You experience the entire range of digital display possibilities. The large, high-resolution 10.25-inch (26.03 cm) display is individually configured by you – for example in the classic form, with the speedometer on the left and the rev counter on the right.

MEDIA DISPLAY

10.25-inches (26.03 cm) High-resolution media display that networks you with the car in large format. It is touch-sensitive and responds to your every action while improving your concentration while at the wheel.

SMARTPHONE INTEGRATION

Smartphone Integration links the mobile phone with the media system via Apple CarPlay™ or Android Auto. You can use apps from third-party providers such as Spotify quickly and easily. The voice control is more than just an appealing feature as you can submit your requests via voice command.

AMBIENT LIGHTING IN 64 COLOURS

Showcase the interior according to your personal preferences or current mood. The 64 colours of ambient lighting create fascinating colour schemes in the illuminated air vents, doors or the dashboard.

When you adjust the air conditioning, feedback is provided in colour. This makes even more of an impression on all passengers.

THERMOTRONIC AUTOMATIC CLIMATE CONTROL

The THERMOTRONIC controls the individual temperature in 2 zones. You and your front passenger can thus set your preferred climate independently of one another. The activated charcoal filter works efficiently in removing not just particulate matter but also harmful substances and unpleasant odours. Your health will thank you for it.

BURMESTER® SURROUND SOUND SYSTEM

Experience more performance and exclusivity with the legendary Burmester Surround Sound System. These high-performance speakers provide you with quality surround sound. You can specifically optimise this for the front and rear seats to intensify the listening experience.

- Premium mid-range speaker as the central speaker
- One premium mid-range speaker in each of the front and rear doors
- One premium tweeter in each front door (mirror triangle) and rear door
- Two surround mid-range speakers in the C-pillars or in the parcel shelf
- One subwoofer in the rear area
- External Class D DSP amplifier, sophisticated sound optimization (DSP: digital signal processors)
- Maximum total output: 590 watts

SPORTS SEATS WITH SEAT COMFORT PACKAGE

The optimum combination of sport and comfort: it optimizes lateral support for dynamic driving and at the same time provides unrestricted comfort for everyday use. Always find the seating position that suits you best. Nets attached to the front seat backrests provide fast and easy stowage space. The Seat Comfort package with its many adjustment options offers you the optimum seating position. The front passengers can find their own personal and ergonomic setting.

UPHOLSTERY

Sports seats in black with contrasting topstitching in red and roof liner in black fabric. Also, the safety belts in red give you an astonishing energetic look and feel in your driving atmosphere and journey.

TRIM

The light longitudinal-grain aluminium trim blends in harmoniously while also creating exciting contrasts. As such, it reinforces and underscores the interior design. At the same time the trim is a continually discernible sign of the quality of a meticulously finished premium product.

MEMORY FUNCTION AND LUMBAR SUPPORT

The Memory function stores the ideal position of the driver and passenger seats with the exterior mirror. Up to 3 people can therefore immediately access their appropriate settings at the press of a button.

For an ergonomic seating position and relaxed back muscles, the 4-way lumbar support is a small detail which has a big impact as it adapts the seat contour to your lumbar spine and offers it support. Four settings are possible: higher, lower, weaker or stronger.

MULTIFUNCTION SPORTS STEERING WHEEL IN NAPPA LEATHER

The multifunction sports steering wheel is in Nappa leather with control panels in chrome and has a flattened bottom section with perforation in the grip area – excellent credentials for sporty driving.

Perfect vehicle control: the steering wheel sets the course, and not just on the road surface. It connects you with the vehicle and becomes a control centre. The Touch Control buttons on the left and right operate various navigation, telephony and entertainment functions. You can even set the speed/proximity control. All this without every taking your hands off the wheel.

STOWAGE COMPARTMENT IN CENTRE CONSOLE WITH RETRACTABLE COVER AND DOUBLE CUP HOLDER

The cover for the stowage compartment in the centre console offers you elegant protection from prying eyes in high-quality material. This looks good, the interior appears even tidier, and everything important is to hand. The practical stowage compartment can house typical everyday items such as a smartphone, wallet or various keys.

You can always have a refreshing drink within reach. This is made possible by the double cup holder in the front section of the centre console. You can safely deposit two bottles or mugs in it. And if you remove the double cup holder, you add a large stowage tray to the interior.

TOUCHPAD

Using the touchpad, you can operate the display of the infotainment system as you would a smartphone. Move or enlarge the content quite simply with single gestures. Each input is confirmed with haptic feedback. The touchpad recognises your handwriting should you wish to enter addresses or phone numbers. It gives you direct access to key functions at any time. For example, for the DYNAMIC SELECT drive modes, vehicle functions, navigation or telephone functions.

WIRELESS CHARGING

Driving time becomes charging time – just drop your smartphone into its allotted place in the oddments tray for wireless charging.

Features:

- Wireless charging for compatible mobile phones according to the Qi standard
- Quick establishment of connection between the multimedia system and mobile phone via Near Field Communication (NFC) for mobile device identification

AMG FLOOR MATS

The AMG floor mats supplement the sporty overall impression of your vehicle. They are finished in hard-wearing black velour, protect the footwell against dirt and are easy to clean. Details such as the "AMG" lettering reinforce the effect.

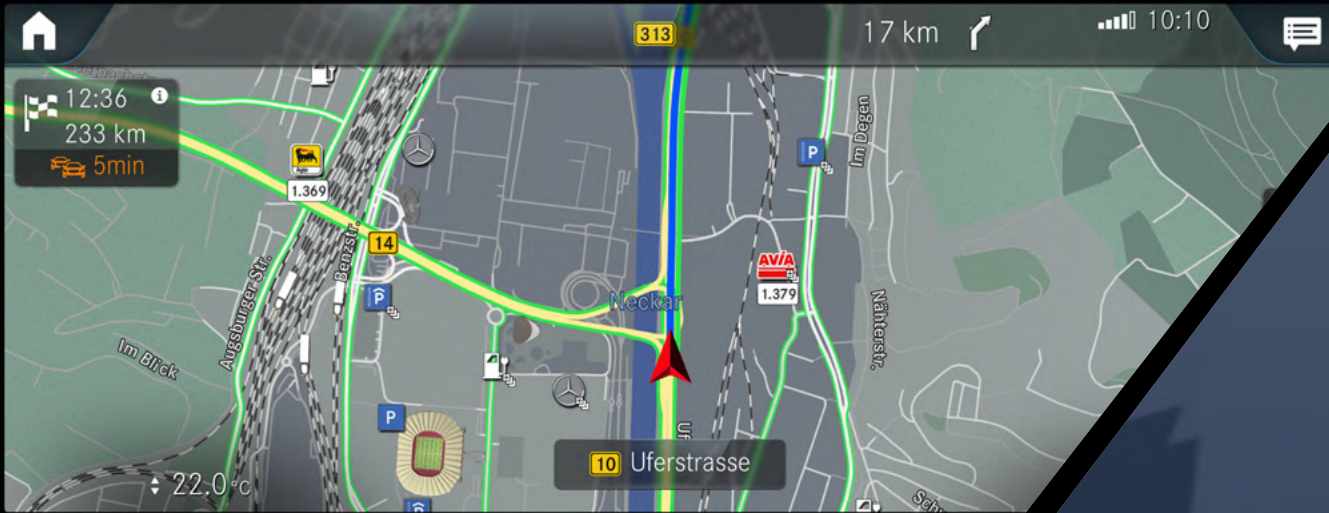

LIGHT AND SIGHT PACKAGE

More light sources for good orientation – and they look good too: for example, transparent lenses in the overhead control panel create a three-dimensional crystal effect. The vanity mirror in the sunblind is illuminated for a quick glance or when putting on make-up.

- Overhead control panel, "4 light stones"
- Interior lamp/reading lamp in rear in support plate
- Touchpad illumination
- Reading lamps, console downlighter
- Vanity lights
- Signal and ambient lamp
- Signal exit lamp
- Footwell lighting
- Cup holder/stowage compartment lighting
- Oddments tray lighting

*Please read the disclaimer.

HARD-DISC NAVIGATION

This combination of Mercedes me connect services and hard-disc navigation makes your everyday life easier.

Hard-disc Navigation: Save time through fast hard-disc navigation with flexible inputs via touch control or voice input. The intelligent system guides you reliably to your destination using both local and up-to-date online data. You can enter the data as you wish – on the touchscreen, or using the touchpad, the touch control buttons or LINGUATRONIC. The system even understands you when you use common speech. Say "Hey Mercedes, take me to..." and specify a desired location. Another special feature is "what3words". This innovative coordinates system determines every single point on earth with exactly three words.

Live Traffic Information: It receives traffic information in real time which is more precise and up-to-date than conventional systems and optimises dynamic route guidance. The data is updated every two minutes over a mobile phone connection. Sending the vehicle's location along with requests for traffic information ensures that the traffic information sent to your vehicle is the relevant information required for calculating your route and arrival time.

*Service usable free of charge for 3 years from activation, also available as an on-demand feature.

EASY-PACK TAILGATE

Extremely practical: the EASY-PACK tailgate can be opened and closed electronically and makes loading and unloading the boot even more convenient. You can start the opening and closing process very conveniently at the press of a button and interrupt it at any time by pressing the button again. You can also press the button on your vehicle key from a distance so that the tailgate is open by the time you get to the vehicle. In addition, there is also the classic option of using a switch in the driver's door or the release handle directly in the tailgate.

FOLDING REAR SEAT BACKRESTS

Your vehicle can be transformed into a minivan in a heartbeat. For shopping trips or weekend excursions, the rear seat backrests feature a 40:20:40 split. And they are twice as practical: if you fold down the centre section for longer objects, the two outer seats can still be used without restriction. You benefit from some astonishing transport options. When fully folded, the backrests transform the rear into a large load area.

KEYLESS-GO

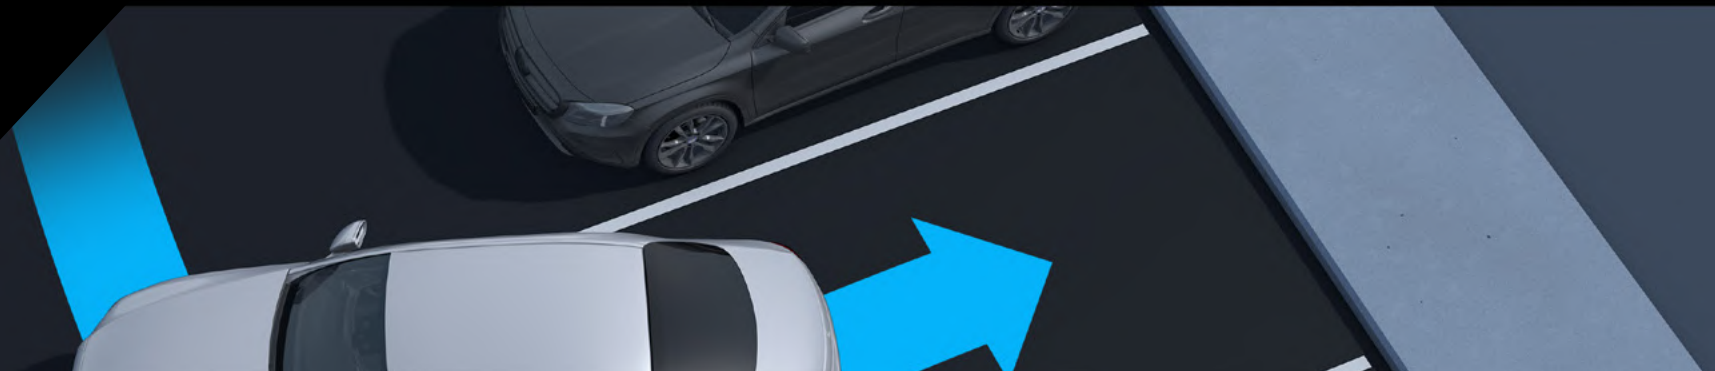

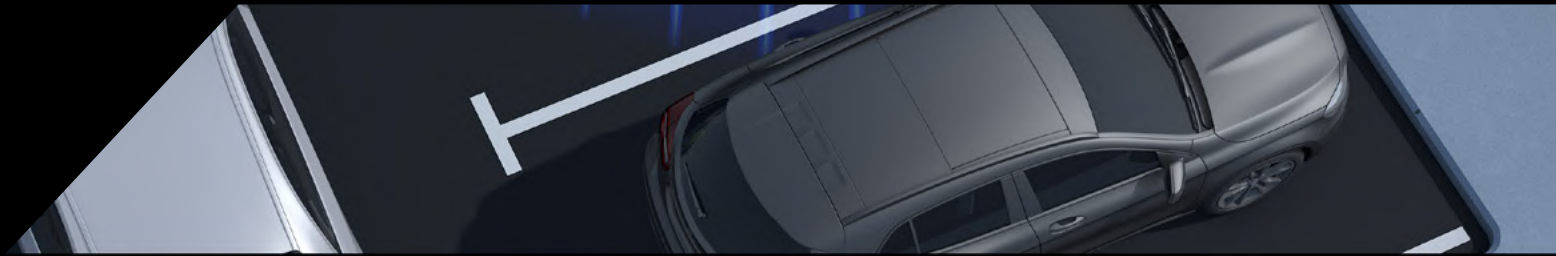

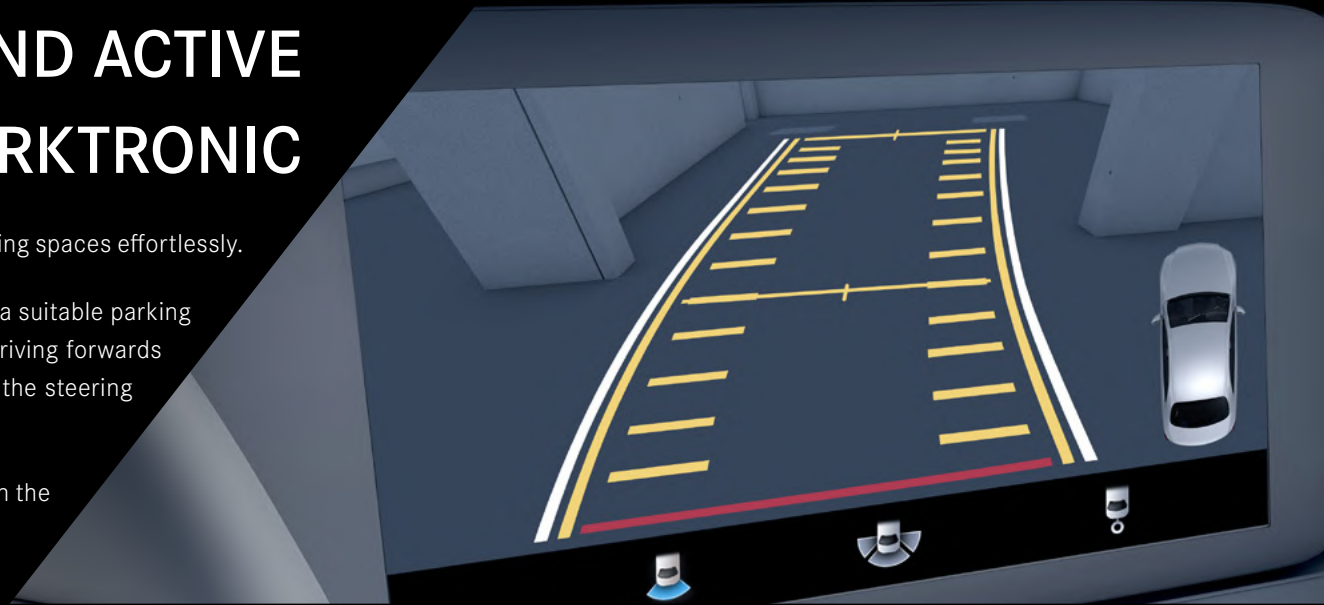

KEYLESS-GO makes it possible to open your car without having to take out your key. The car automatically recognises its approaching owner, thanks to the stored access and drive authorisation. You can even control the panoramic sunroof before you climb in. Now that's convenience at its finest.

REVERSING CAMERA AND ACTIVE PARKING ASSIST WITH PARKTRONIC

With this package you will master even tight parking spaces effortlessly.

Active Parking Assist with PARKTRONIC searches for a suitable parking space and then helps you to park in it. It assists with driving forwards and backwards into end-on parking spaces by taking over the steering for you.

The reversing camera, located in the boot lid, displays a diagram on the multimedia system which in turn enables you to reverse with ease.

AUTO

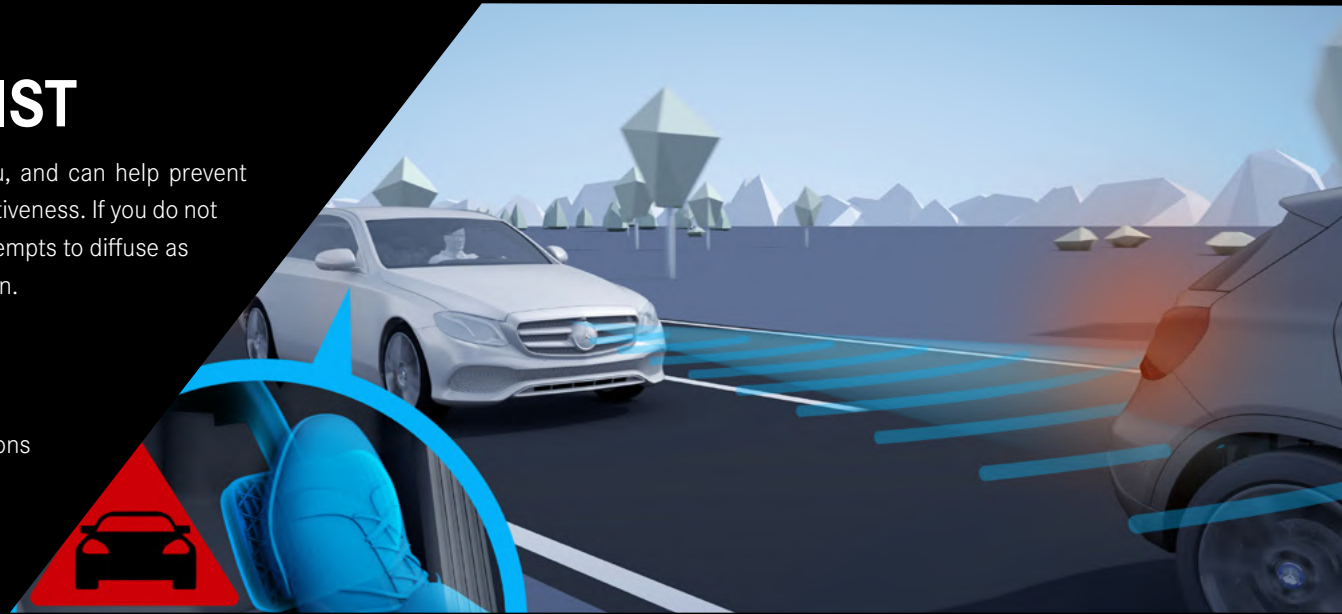

ADAPTIVE HIGHBEAM ASSIST PLUS

Drive with a permanent main beam that virtually turns night into day, providing you with a seamless driving experience. See far, don't dazzle – the Adaptive Highbeam Assist Plus works according to this motto. This intelligent system masks out oncoming traffic or vehicles in front with highly precise LEDs: you do not have to keep on changing over to dipped-beam headlamps.

ACTIVE BRAKE ASSIST

Active Braking Assist is constantly attentive for you, and can help prevent serious accidents due to insufficient distance or inattentiveness. If you do not react, Active Braking Assist does so on your behalf and attempts to diffuse as much energy as possible with an autonomous brake application.

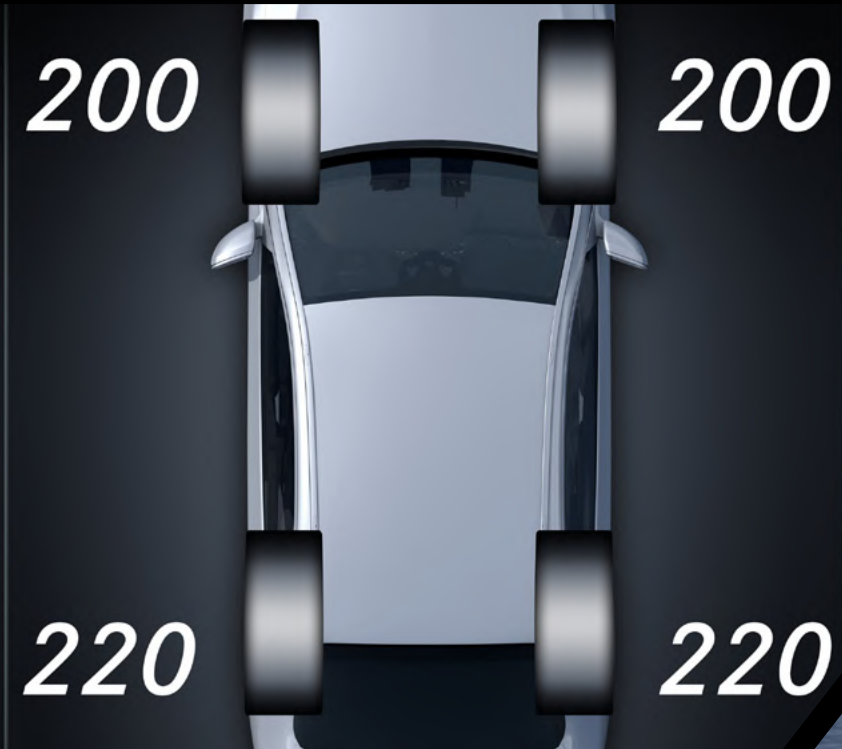

- Radar-based driving assistance system with mono camera
- Adjustment options for intervention points: early, medium and late
- When the critical braking exceeds specific acceleration values, the functions of the PRE-SAFE® system can also be activated

ACTIVE BONNET

The active bonnet system minimizes pedestrian injuries by lifting the rear edge of the hood when you are involved in an accident. Raising the hood creates additional space that can serve as a cushion between the hood and the engine, improving pedestrian protection.

TYRE PRESSURE MONITORING SYSTEM

The system monitors the tyre pressure for you and provides you with a warning in the event of a drop in pressure. Correct tyre pressure additionally increases tyre life. The instrument cluster displays the current tyre pressure of each wheel after a few minutes of driving, leaving you in the know within minutes. It also sounds you off when the tyre pressure suddenly drops at a rapid rate. The instrument cluster then displays the line of text "Warning - tyre defective" or "Tyres overheated".

TIREFIT WITH TYRE INFLATION COMPRESSOR

Your quick temporary fix in the event of less significant tyre damage caused by driving over nails or shards are sealed by the sealant blown in via the air compressor. As a result you can continue to drive to the nearest workshop at up to 80 km/h.

**If there is a risk of an accident, do not continue driving! Contact an authorized workshop at the earliest.*

THE 8 YEARS YOU'LL BE LOOKING FORWARD TO

The all-new Mercedes-AMG GLA 35 4MATIC isn't just best-in-class when it comes to road presence and impressive features. There's more to the Star than meets the eye. To give you an experience like never before, enjoy an 8-year warranty on engine and transmission from the date of the purchase.

Get exclusive benefits such as:

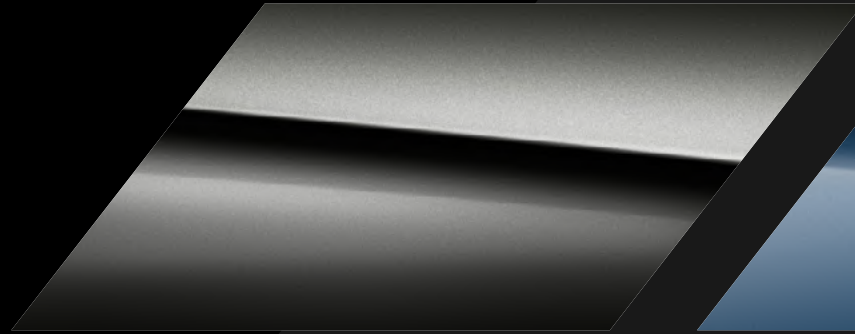

- Warranty honoured nationwide at any of our authorized Mercedes-Benz dealers
- Warranty work and repairs performed using genuine Mercedes-Benz parts
- Warranty transferable to the next owner in the event of a sale

Coverage of parts such as:

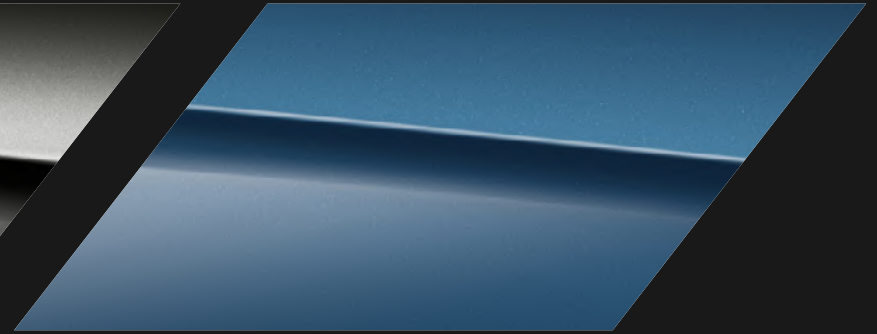

- Engine and Transmission
- Torque Converter
- Supercharger/Turbocharger
- Engine and Transmission Control Units

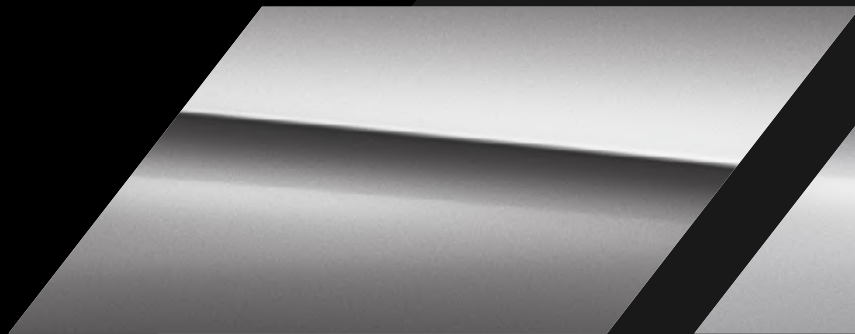

PAINTWORK

(*Special paint available at additional cost)

EXTERIOR MIRROR HOUSING

A black high-gloss Mercedes-Benz Sport Equipment exterior mirror housings for enhanced aerodynamics and an individual, sporty and dynamic look.

MERCEDES-AMG ROOF BOX

The innovative, aerodynamically developed design of the Mercedes-AMG roof box combines sportiness and exclusivity. The two-colour finish and the fin in the cover create an interesting interplay of light and shadow, emphasizing the expressiveness of the AMG design. Optimum results in terms of aerodynamics, driving characteristics and background noise are attained.

SUV DASHCAM PACKAGE

A dual-channel camera system, the dashcam records critical driving situations and, thanks to its innovative radar technology, it can also be used for efficient parking monitoring by scanning the area in the immediate vicinity of the vehicle to record relevant events. High resolution and light sensitivity ensure high video quality day and night. The built-in acceleration sensor likewise detects vehicle vibrations.

Backlit keys make the unit easy to use. Additional settings can also be configured via the web interface or associated apps.

- 32 GB Memory Card

TRAVEL AND STYLE COAT HANGER

It's easy to arrive looking sharp, courtesy of the sturdy coat hanger which allows you to store various items of clothing. Rounded ends protect the fabric, which is easy to secure behind the head restraint.

Genuine Accessories **Additional charges apply.*

FOLDING TABLE, STYLE & TRAVEL EQUIPMENT

A practical place to store food and drink, the folding table with a direct adapter features a cup holder insert. It's easy to open and fold, making it convenient to have a quick bite.

BICYCLE RACK

The new Alustyle bicycle rack is the epitome of easy cycle transport. Suitable for different cycles, this rack is fully pre-assembled and ready for use. At just 2.5 kgs, it's extremely lightweight. Up to three bicycles can be fitted, making the rack an ingenious convenience.

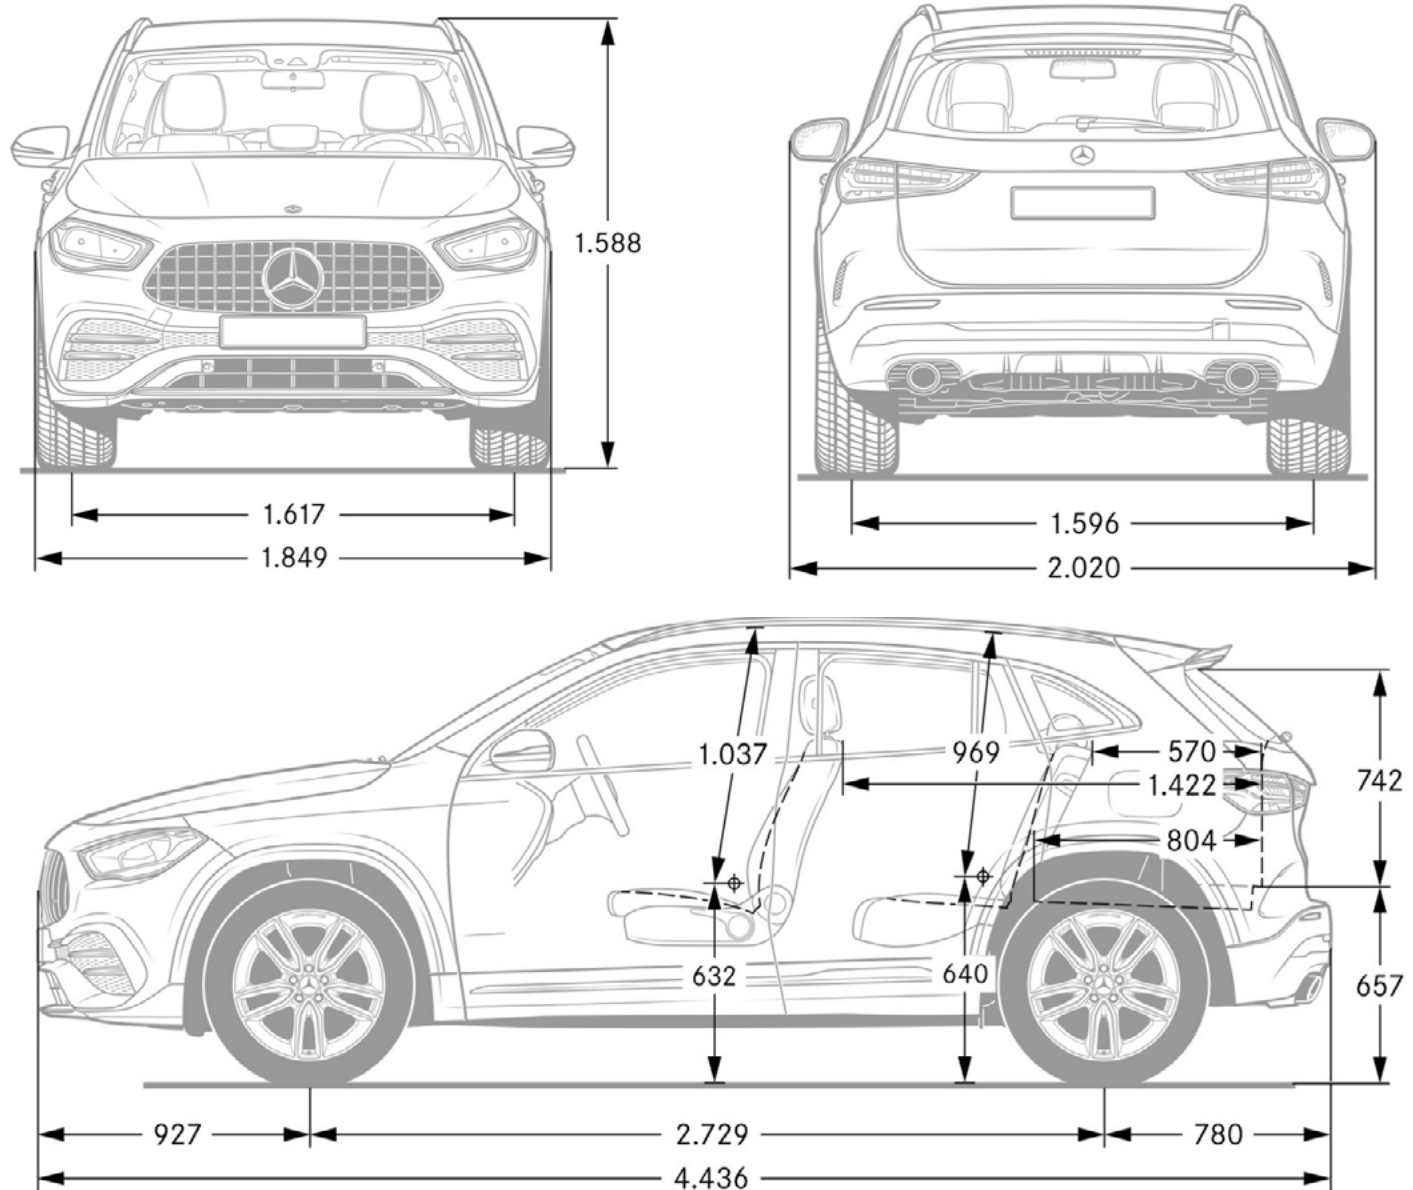

Genuine Accessories*Additional charges apply.

CONCERTINA LOAD SILL PROTECTOR

The concertina load sill protector not only protects the boot from contamination, but also protects the bumper and boot sill from being scratched. As the mat can be folded out, even your clothes stay clean when loading the boot. The mat can be used in a cross-range manner and is easy to clean after use as well as takes up little space when stowing.
