Δ Advanced driver assistant systems (ADAS) is not a substitute for human eye or driver vigilance. It is a driver assist system only to enhance safety and driving experience. The driver will remain responsible for safe, vigilant and attentive driving. • The Acoustic Vehicle Alerting System (AVAS) enhances pedestrian awareness at speeds up to 20 kmph. It complies with safety regulations but should not replace vigilant driving practices. ΔΔ TPEM will not be responsible for public charger downtime/ charger malfunction/ vehicle damage due to charger malfunction a Use of the system does not remove the responsibility of the driver to assess visibility, traffic conditions and to intervene when needed. The driver should always use caution to reduce the risk of accidents. B Use of the system does not remove the responsibility of the driver to assess visibility, traffic conditions and to intervene when needed. The driver should always use caution to reduce the risk of accidents. **Y** Use of the system does not remove the responsibility of the driver to assess visibility, traffic conditions and to intervene when needed. The driver should always use caution to reduce the risk of accidents. **5** The Transparent Mode & 540 degree view function is designed to enhance driver awareness and provide a better view of the vehicle's surroundings. However, it is not a substitute for careful driving and should be used in conjunction with other safety features and driver judgment. Drivers should be aware of the technology's limitations and remain responsible for the safe operation of the vehicle. ε HD rear-view mirror has a limited view. The driver is responsible for detecting obstacles and estimating the vehicle's distance from them when maneuvering the vehicle. Driver distraction can lead to accidents, potentially causing serious injury or death. **n** Enjoy Drive pay services as a part of Arcade.ev active subscription. The availability and functionality of Drive Pay, or any part of service thereof, depends on various factors and elements, including software, hardware and communication networks that are provided by NPCI on their own terms. These are not fault free, and Tata.ev does not warrant or guarantee that drive pay will operate without disruption, errors or interruptions, or that a it will be accessible or available at all times. Users are responsible for their transactions and should keep their UPI PIN and other credentials confidential. Tata.ev is not liable for unauthorized transactions or losses due to user negligence or third-party actions. Please read carefully NPCI terms and conditions, before activation & using the UPI mandate which can be amended by NPCI from time to time as per their policy. Please visit their website Θ The navigation system is powered by Mappls Auto. Mappls Auto will only function when internet connectivity is available. Users are responsible for making their own decisions about safe driving and navigating based on their own judgment and awareness of their surroundings and choice of using the preferred navigation means. Services are subject to interruptions or limitations due to various factors. Tatalev disclaims any warranties, express or implied, related to the accuracy, completeness, or reliability of products or services offered by Mapple Auto I To use Digi Access, you must first complete the activation process and then follow the instructions to pair your digital key to your device or your device's wallet app. To activate either Digi Acess and manage the digital keys, your device must have an active data plan with a wireless service provider. Accounts with wireless service providers are your responsibility, and not the responsibility of TPEML. Depending on your data plan, you may incur charges from your wireless service provider for use of their network and/or for specific services, for example, making phone calls, sending or receiving text messages and/or emails or other services. You are solely responsible for any and all costs incurred as a result of the use of this feature. You are solely responsible for any use of Digi Access in your vehicle, even if you are not the one using it, and even if you later claim the use was not authorized. You are also solely responsible for the services requested by you, or by anyone using or occupying your vehicle, through Digi Access key. You promise to educate and inform all users and occupants of your Vehicle about the Digi Access services, system features and limitations and these User Terms. We have no obligation to inquire about the authority of anyone using your Vehicle Digi Access is a comfort enhancement feature and must not be considered as a complete replacement to physical keys offered with your vehicle. It is recommended to always carry a physical key while driving your vehicle to avoid inconvenience in case of unforeseen circumstances as digi acess shall not work in case either your vehicle or your registered device is located in no or low network area or your registered device has run out of battery. The images shown represent color availability for different personas only. Specifications may vary for each persona. The displayed colors may differ from the actual colors due to variations in screen settings, lighting conditions, and material finishes. For the most accurate color representation, please visit your nearest dealer. ⁸For First Registered Owner. Applicable for Private Registration only. In case of ownership change, warranty on HV Battery shall be 10 years or 2,00,000 km - whichever is earlier from the date of 1st registration.
